Mrs. Smith was in charge of the program for the evening and presented these speakers: Mrs. Frederick Tilberg, who talked about the preparation of beginners for entering school; Donald A. Ullrich, Lincoln school teacher, who discussed the problems of adolescence; Mrs. Lester O. Johnson, who talked on children's use of leisure time, and Harold Raffensperger, who presented youth's opinions on home, school N. Y. and community.

The importance of parents' training and influence on the pre-school child was emphasized by Mrs. Tilberg who described basic habits, skills and attitudes that children need to begin public school work. "Desirable work habits, some concept of learning and an attention span of at least 15 minutes" were among the requirements listed by Mrs. Tilberg.

Adolescents, Leisure Time

Discussing adolescents, Mr. Ullrich said, "98 per cent of our young people make the necessary teen-age adjustments satisfactorily, so we may say that most parents are doing a good job. It's among the other two per cent that our delinquents occur." He suggested that the energies of the adolescents may be best directed "by guidance and example." G. L. Bream Garage vs. Moose, 7:15.

Elks vs. Eagles.

Although the Moose dropped their initital game of the season Thursday | 36. evening to the VFW, their game tonight with the Glenn L. Bream garage outfit still remains as a battle for first place.

A six-run second inning got the Vets off to a big lead Thursday night and the Moose were never able to over-come the advantage. The lodgemen rallied for five runs in the fourth and in their final turn at bat pushed over three runs, but Jay McGlaughlin came to the rescue of P. Aldinger to retire the final batsmen with two runners aboard. Fazenbaker and Aldinger each rapped three blows for the winners.

A two base hit, which could have been a homerun, in the last half of the seventh inning by Himes drove in the winning run as the Texas Lunch nosed out the Stanton Legion 15-14 in a free scoring opening game. The Legionnaires got off to a 12-6 lead in the first three innings but the lunchmen rallied for eight runs in the fifth. After the Stanton outfit tied the affair in the top of the seventh the lunchemen broke the tie with the winning run. Saylor connected for four hits for the winners while Woods got two for the losers. This is our 21st consecutive season in this line of business and, as in past years, we will be directly under the supervision and guidance of the State Health Department at Harrisburg. This year, as in the past 20 years, we are very satisfied to adhere to their requirements, which are:

- (1) Carry a Chlorine Residual of 0.2 to 0.6
- (2) Carry a ph. Test of 6.8 to 7.2
- (3) Add Copper Sulphate in Sufficient Quantities to Eliminate any Algae Formation

The pool itself has a capacity of 100,000 gallons of water and on an average of 18,000 to 20,000 gallons of fresh water, which is derived from two artesian wells, added daily. The water is purified with a Wallace and Tiernan Chlorinator approved by the State Health Authorities.

"A DAILY DIP — THAT'S OUR TIP"

Start of a Wonderful Journey!

Well, there it goes-out from the great Cadillac factory into the hands of a proud and happy owner. And what an odyssey it would make if its whole

future course could be charted and foreseen! -far journeys to the world's most fascinating places

... grand appearances at the proudest social events ... splendid visits to affairs of state . . . year after year of participation in the life of a fine American family.

Yes-and perhaps two or three, or even four fine American families-for a Cadillac is so soundly designed

and built that there is no practical limit to its utility. Truly, no more interesting biography could be written than an account of the life of the average Cadillac car.

As the primary means of transportation for interesting,

vital people-it is usually a spectator at important events -always in demand as a trustworthy traveling companion. So there it goes, like the many thousands of its predecessors, on one of the most eventful and fascinating

journeys a motor car ever began. Wouldn't it be wonderful-and inspiring-to go along?

We are sorry indeed that delay in delivery of new Cadillacs continues unavoidable. If you are waiting for a

BREAM, INC.

Cadillac, please be patient-but hold to your purpose. There is no substitute for the "Standard of the World."

LOT of folks like the two-door A idea, because they feel that tiny tots are safer in the back seat.

But that's no reason why back-seat headroom should be dimensioned for midgets only.

So Buick engineers have done something about it, in the Buick SPECIAL 2-door Sedan pictured here.

They've kept the compactness of over-all length that's important in modern garages.

But they've arched that sturdy steel top to give you he-man headroom -headroom in back as well as headroom in front - that makes a six-footer feel at home.

And they've designed a trunk that has "room for tourists."

Don't ask us how they did it. Come see for yourself.

Slip into those spacious seats—and while you're there, find out why this compact honey is one of the hottest numbers we've seen in years.
